Saterday Oct 11th

Bloing A gail from the S.W. with snow squals the Ship under close reef top sails crusing S.E. of Hearald island saw sum whales but could not loar for them

Sunday Oct 12th

Modrate breez from the S.W. the Ship under top sails and corses crusing to the S.E. of Hearald island saw sum whales and loard for them the Second mate Struck one and we got Him all hands imploid cutting Him in

Monday Oct 13th

Commences with A modrate gale from the N.E. with snow squalls the Ship under reef top sails crusing on opiset tacks but saw no whales spoke the Thomas Pope and Steard of to the S.W. in company with Her

Tuesday Oct 14th

Strong breez from the N.E. the Ship under reef top sails Steaing to the E.S.E in company with the Thomas Pope at 2 P.M. saw a whale and luffed to the wind to the N.E. and raised the Bark Murkry and gamed with Her

Wedensday Oct 15 th.
Commences with A modrate breeze from the N. W. the Ship under all Sail Stearing to the N. in company with the Thomas Roy and Murkrey at 2 P. M. raysed the ice and saw A whale and board the Boats and it came on to Snow so we did not see the whale untill it was dark

Thursday Oct 16
very light breeze from the N. E. with Snow the Ship under all Sail cruising A long the ice in company with the Bark Murkrey at 2 P. M. had not seen any thing so Steard to the Eastward.

Friday Oct 17 th.
Commences with A very light breeze from the N.E. the Ship under all Sail Stearing to the S. at 10 A M the murkrey Jucked up A ded whale later part of the Day calm

Saterday Oct 18 th.
Commences with A light breeze from the S. E. the Ship under all Sail Stearing by the wind to the S. S. E. Saw plenty of New ice close to hearded Sholes

Sunday Oct 19 th.
Commences with A modrate breeze from the N. E. the Ship under all Sail Stearing to the Eastward A long A pack of ice that we came up to in the night did not See any way to get A round it So Steard off to the Westward untill dark but could not get A round it So haled the Ship by the wind to the N. by. E

Monday Oct 20th

Commences with A Strong breeze from the Eastward the Ships under all Sail Steering by the wind to the N.E later part of the day the wind haled more to the South the Ships by the wind heading E by S

Lat 71-01

Tuesday Oct 21st

Commences with A light breeze from the N.W the Ships under all Sail Steering E.S.E. at 10 A.M. came to A Lot of new ice and found that we had to try and git through it so put the Ships into it and have bin working to the South all day through the ice in company with the Bark Muskrey found the ice very close but thin

Wedensday Oct 22nd

Commences with A very light breeze from the N.E. and very cold the Bromiter down to Eight the Ships with all Sail set Laying in the ice but cannot git through the Muskrey is close to us but cannot Start put the Lead over to git Soundings and found 18 fath with A curant Setting us to the N.E. A bout 2 miles an hour so we droped both anchors and they Healed the Ships and the ice wirked past but we cannot see any sines of clear watter at 3 P.M. the curant stoped and we got one of the anchors up and we have got the Bark murkrey fast to us with two cutting falls and she has got one anchor down it is freasing very hard and the ice is getting thick and if it dos not Breake up very soon I am Afraid that we will have to stop all winter at 6 P.M. the wind cane out from the N.E. Strong with A snow Squall so we hove up our anchors and cased of the cutting falls and maid all Sail the Murkrey Started and went A bout 100 Ships Length and then stoped we could not git the Ships started So ends this day

Thursday Oct 23rd

This day commences with A calm and cold the Bromiter down to Eight the Ships laying frosen in the ice we tried to git them to gether but could not and we have all come to the conclushion that we cannot git the Ships out and will have to stop all winter and as we have not got provishions nor fuel A nuf in eather of the Ships to last we will have to live in one Ship and use all the other one for fue and if the ice should Break up theay mite bee A chance to save one of the Ships and as this Ship is the strongist we have chosen hir and all hands have bin bussey all day bringin Blubber from the murkrey to this Ship they draged it over on the ice I have knoked down all of the Emty casks and put them in the boat hole for fire wood and to make room for the provishions the ice is very hard and thick so that we can bring A large load on the sled at 3 P.M. it breased up strong from the North with snow but the ice dos not start captan Hickmans wife and child have come on board

Friday 24th Commences with A gail from the North the Ships are boath frosen in the ice and all hands at work gitting bluber and provishions from the murkrey it is very cold and freesing we have Broken up 150 barels of casks to make room for the crue and provishions and had A bout 600 feet of Heading Boards on the ice to drag the bluber over the Ships are maid fast to each other with the cutting falls and we have got two anchors out on the ice with lines fast to the Ship at 4 P.M. A very heavy gail the commenced to breack up and the Ships to labor very bad so that we had to cut from the murkrey and the ice because if we got togather we should have bin all torn to Peases we lost three cutting falls fore tow Lines one coil of 3½ inch Rope and all of the Boards and the two anchors all hands on board of the Helen Mar and we set A close reef for top sail and are trying forse the Ships through the ice She is pounding very Hard

Saterday Oct 25th It is still Blowing A gail from the North with A very heavey Swell we have bin working to the S.E. all night and have bin teribley pounded with the ice and have tried the pumps every fifteen minuts but have not started to leack any yet we were all A fraid that the ice would cut the ship through or stave hir at A bout 4 P.M. we got through to whear ther is quite clear watter the Ship under close reef fore and main top sails Steering to the E.S.E. it is blowing A very heavey gail from the N.N.W and is freazing very hard the ship is all coverd with ice and Snow

Sunday Oct 26th it continues to blow very hard from the N.N.W. the Ship under two close reef top Sails Steering to the S.E. at 2 P.M. came to Sum more new ice which was packed close and extended as far as we could See to the S.W. and N.E. with A heavy Swell we put the Ship into it and maid all Sail and we wirked through it and got to where it was quite clear at 5 P.M. and Steard of to the S.E. at 11 P.M. came to Sum more new ice point Hope and wirkid into it under all Sail

Monday Oct 27th Strong gail from the N.E. the Ship under all Sail working through new ice to the S.W. the ice is very thick and the western pack is in Sight all A long to the westward of us we got Soundings at 25 fathems and we Supose that the Ship is to the North of the dumpals A bout 25 miles at 4 P.M. we got through the new ice and past Sum very heavey ice and got into watter whear ther was A great deal of drift ice and it was to dark to run the Ship we laped by the wind to wate until day light the Ship under fore main and mizen Stay Sails and it is blowing A very heavey gail from the N.E. the Ship is all coverd with ice and the Bromiter is down to 3 degreas A bove zero and the ruder is frosen So that we can only move it part of the way up or down

Remarks On Board Of The Bark Helen Ma

Tuesday Oct 28th Commences with A Strong gail from the N. W. the Ship under close reef top sails heading by the wind to the westward at 8 A. M. it cleard of A little and we raised East cape and the Dimeads bering S by W. 25 Miles of with plenty of ice the Straits are blocked up from the Dimeads to East cape we Steard of to the S. E. to go to the Eastward of the Dimeads and worked through A great deal of ice Latter part of the day the wind moderated and came out from the S. E. the Ship under all sail on opsite tacks between the Dimeads and cape Prince of Wales but cannot gain any as thear is A Strong curant runing to the N. W. at 11 P. M. tacked Ship and headed S. by E under all sail

Wednesday Oct 29th 12 A. M. the wind from the N. E. the Ship under all sail Steering S. S. E with A thick Snow storm the Ship going A bout Six Nots at 6 A. M. the Ship ran on Shore of cape Prince of Whales but no land in Sight She laid on the Bottom and pounded very hard for one Hour we laid all of the Sails A back and throw Sum things over board to liten the Ship Bluber casks Barels and every thing that we could git hold of and the Ship finley backed off into deaper watter and we Steard to the N. W. untill we got 25 fathems and then Steard South and went out between Fly Away Rock and the Dimeads at 3 P. M. we came up to packed ice and had to wear Ship the curant was runing So Strong that we could not weather the Dimeads So we got ready to anchor and ran down between the islands but found Sum ice ther So Luped by the wind to the Eastward

While On the Pasage Out Of The Artic Nov 1871

Thirsday Oct 30th Commences with A modrate breeye from the Eastward the ship under all sail Stearing to the S.S.E at 2 P.M. we pased through between fly A way Rock and cape prince of wales with thick weather and snow squals later part of the day it breazed on A little the ship under reef top sails stearing S.E. by S

Friday Oct 31st Commences with A modrate breeye from the Eastward the ship under all sail stearing S.E. by S. until 3 P.M. with thick weather and snow squalls it then cleard of A little and we thaught that we saw St Lorance Island and steard of to the S.W. until 5 P.M. then we lufed by the wind on the starbord tack and laid A back Sounded and got 19 fathems

Saterday Nov 1st. Commences with A gail from the N.E. the ship under reef top sails steard of to the W. by S and got 15 fathems of watter then steard to the N.E. until we got 30 fathems and then steard to the S. by E and got into 15 fathems and lufed by the wind on Spicet tacks to wate until day light thick snow storm all of the time

Sunday Nov 2nd Commences with a gail from the N.E. with A thick Snow Storm the Ship under reef top sails at day light we steard to the westward until we got 30 fathems and then steard to the S.W. and pased St Larance Island A bout 10 A.M. and steard of to the S.S.W.

Monday Nov 3rd Commences with A gail from the N.W. the the Ship under reef top sails stearing S.S.E. we started to boil the Blubber that we got from the murkrey but it was so ruged that we had to cool down A gain later part of the day modrate breeye from the Westward the Ship under top sails and top Gal sails stearing

Remarks On Board Of Bark Helen Mar
